Published: 02
December 2013

A complete state-of-the-art manual on nutritional support for ICU patients, the present book,

Download File

PDF Canadian

Written by

internationally
renowned

specialists,

addresses

fundamental

aspects of the p

athophysiological

l response to

injury as well

as practical

issues of

nutritional

care. New

Download File

PDF Canadian

Critical Care

features include
an analysis of

gene

polymorphism and

its possible

consequences for

the survival of

traumatized

patients. A

better

understanding of

this process

could become a

basis for

Download File

PDF Canadian

defining new

nutritional

strategies.

Hence the

discussion on

indications for

immune-enhancing

diets. Of

special interest

is the research

on copathologies

(i.e. obesity)

which can change

the prognosis of

Download File

PDF Canadian

ICU patients who
thus require
specific
nutritional
support.

Entirely new is
the merging of
the
recommendations
of international
and national
societies (e.g.
ASPEN, ESPEN),
first realized

become an
invaluable
resource for all
graduating
fellows and
practicing
physicians who
are taking the
surgical
critical care
board
examinations.

This manual is

Page 67/128

Download File

PDF Canadian

Critical Care

Nutrition
Guidelines

designed to serve as the standard for the management of patients with ruptured abdominal aortic aneurysm (AAA) by means of modern techniques. All aspects are covered, from pathogenesis,

Download File

PDF Canadian

Critical Care

presentation,
and diagnosis
through to

initial

management,

operative

strategies,

postoperative

complications,

outcomes and

quality of life

issues. The book

is based on the

Download File

expertise in

this medical
emergency. The
team at

Harborview

Medical Center

has recently
shown that the
implementation
of a structured
protocol for the
management of
ruptured AAA,
with emphasis on

Download File

PDF Canadian

an “endovascular-
first” strategy,
dramatically
reduces

mortality and
complications.

This has led to
a sea change in
the way in which
patients are
managed. There
is an increasing
hunger for
information on
