PDF downloadable for free from <http://martenscentre.eu/publications/smart-fiscal-consolidation-strategy-achieving-sustainable-public-finances-and-growth> Due to high government debt levels and the dangers of self-defeating austerity, smart fiscal consolidation measures are needed that foster economic growth. A thorough review of the relevant literature provides many useful insights. To regain credibility, a clearly communicated broad reform program (including structural reforms) is required. Targeting mainly public expenditures, rather than revenues, raises the chances of expansionary effects. The timing of consolidation should focus on adjustment in structural terms to leave room for automatic stabilisers. The main part of the study evaluates the impact of individual consolidation and fiscal reform measures on consolidation success, on economic growth (in the long and short term), and on social fairness.

The Research Summaries in the March 2013 Research Bulletin discuss "Trade Finance and Its Role in the Great Trade Collapse" (JaeBin Ahn) and "Sovereign Debt: How to Track Who Is Buying and Selling It" (Serkan Arslanalp and Takahiro Tsuda). The Q&A looks at "Seven Questions on the Implications of Global Supply Chains for Real Effective Exchange Rates" (Rudolfs Bems). Readers can also find in this issue a listing of recent IMF Working Papers, Staff Discussion Notes, and Recommended Readings from IMF Publications. The Bulletin also includes a call for papers for a research conference and information on free access to the IMF Economic Review in April.

In the internet age, the need for effective consumer law enforcement has arguably never been greater. This timely book is a comparative law and economic analysis of the changing landscape of EU consumer law enforcement policy. EU member states are moving away from purely public or private law enforcement and now appear to be moving towards a more mixed approach, not least due to European legislation. This book reflects on the need for and creation of efficient enforcement designs. It examines the various economic factors according to which the efficiency of different enforcement mechanisms can be assessed. Hypothetical case scenarios within package travel and misleading advertising, dealing with substantial individual harm and trifling and widespread harm are used to illustrate various consumer law problems. Design suggestions on how to optimally mix enforcement mechanisms for these case scenarios are developed. The findings are then used as a benchmark to assess real life situations in countries with different enforcement traditions - the Netherlands, Sweden and England. The book is of value to both researchers and policy-makers working in the area of consumer protection.

This book contains a medium-term (five-year) economic outlook for Southeast Asia, China and India.

Africa's association with the European Union has long been hailed as a progressive model of North-South relations. European officials, in particular, have represented the Africa-EU 'partnership' as a pro-poor enterprise in which trade interests are married to development prerogatives. Applying a moral economy perspective, this book examines the tangible impact of Africa-Europe trade and development co-operation on citizens in developing countries. In so doing, it challenges liberal accounts of Europe's normative power to enable benevolent change in the Global South and illuminates how EU discourse acts to legitimise unequal trade ties that have regressive consequences for 'the poor'. Drawing upon the author's own fieldwork, it assesses the difference between norms and the actual impact of EU concessions in relation to: budget support; aid for trade; private sector development (PSD); decent work. It concludes by considering the value of a moral economy approach in the assessment of free trade structures more widely. This text will be of key interest to scholars and students of Africanist IPE, European studies, and more broadly international political economy, international development, and international relations.
