Among Mercedes Lackey's many novels, few are as critically acclaimed and beloved as those about the Elemental Masters. The novels in this series are loosely based on classic fairy tales, and take place in a fantasy version of turn-of-the-century London, where magic is real and Elemental Masters control the powers of Fire, Water, Air, and Earth. Now other authors join Mercedes Lackey to add their own special touches to this delightful alternate history, in a world where magic is always just around the corner...

Learn how to use the principles and practices of natural magic for personal development and spiritual empowerment • Offers detailed descriptions of the magical properties of minerals, animals, plants, and the earth's cycles and how to use them in your own practice • Explores the magical laws of nature and how to guide your inner energy to work in concert with cosmic energies • Details how to design your own ceremonies, practice elemental meditations, and craft your own magical talismans, wands, and divining rods An expert on European rural folk magic traditions, author Nigel Pennick presents a comprehensive introduction to the principles, rituals, practices, and magical tools required to draw on the magic inherent in the natural world. He explains how people throughout the centuries have built a relationship with the elemental energies around them using simple, everyday practices in order to attune themselves to nature, the seasons, and the cosmos for magical purposes. The author explores earth, mineral, and plant magic as well as the magical properties of the earth's cycles and concentrated places of power within the landscape. He examines magical workings with animals, drawing on authentic traditions such as the Toadsmen or Toadswomen, whose power is given by toads, and the Berserker qualities conferred by magical bondings with wild animals like bears and wolves. He explains how to craft your own magical talismans, wands, and divining rods; design your own ceremonies; practice elemental meditations; fortify your health with herbs and crystals; and set an altar with the right food and drink for your intention. Pennick also describes how the practical techniques of natural elemental magic work through interactions between the inner world of the mind and spirit, the outer world, and the otherworldly. He shows that having a deeper understanding of the interconnectedness of all things and the inner power of these magical elements strengthens the practitioner's harmony with nature, and thus their power. By harnessing the elemental energies around us, we can work with nature for personal development, spiritual empowerment, and the successful achievement of our desires

I thought magic was make believe...but I was way wrong. I was nobody. No matter how hard I tried, I never fit in with anyone at my high school. Now I know why. Turns out I'm a witch. A scary powerful one, too. Except The Covenant that claimed me won't teach me how to use my magic. Suddenly, I'm selected by the Goddess to hunt down a mythical locket needed to save the world from destruction. The only person who actually tries to help me is the alarmingly attractive Tennessee. He has immeasurable power and breathtaking mismatched eyes. I'm drawn to him on a level I can't explain...and he's forbidden from getting too close to me. When the quest takes an unexpected dangerous turn, I have to improvise. This supernatural world is unraveling at my fingertips and I need to master my magic fast. If I don't, I could get everyone I care about killed... Featuring a kickass heroine, forbidden love, and magic you'll wish was real, fans of The Mortal Instruments, Twilight, or Harry Potter will love Chandelle LaVawn's brand new urban fantasy series! Thousands of copies sold. Millions of pages read. 500+ five-star reviews for the series. In March 1987, Mercedes Lackey, a young author from Oklahoma, published her first novel, Arrows of the Queen. No one could have envisioned that this modest book would be the beginning of a fantasy career that would span decades and more than a hundred novels, with no signs of slowing yet. And among Ms. Lackey's many novels, few are as critically-acclaimed and beloved as those of the Elemental Masters. The novels in this series are loosely based on classic fairy tales, and take place in a fantasy version of turn-of-the-century London, where magic is real and Elemental Masters control the powers of Fire, Water, Air and Earth. Now the voices of other authors join Mercedes Lackey to add their own special touches to this delightful alternate history, in a world where magic is always just around the corner...
