Letters Every letter is a new territory for your child. The first step is to get to know the letter and practice through the correct pen guidance by simply tracing it. This is followed by a word containing the letter you have just learned. So your child learns to put the letter in a word. Encourage your child to read the word aloud to directly practice the corresponding sound. Finally, your child learns to write the letter freely and independently. Numbers To understand the meaning of numbers, your child starts counting picture elements. Then, just as with letters, he or she will have to trace the numbers. As soon as they become more confident, free writing follows the number you have just learned, with guidelines ensuring that the number is placed at the correct height.

This set of 12 simple and fun Pete the Cat storybooks is an excellent choice to share during homeschooling. It's a fun way to learn to read and as a supplement for activity books for children ages 3 to 6. Enter into the world of reading with My First I Can Read! New York Times bestselling author and artist James Dean's Pete the Cat helps kids learn to read with phonics. Who knew reading could be so groovy! Reviewed by a phonics expert, these 12 short full-color books feature repeated examples of short and long vowel sounds and common sight words. Each of the simple stories in this box set is designed to teach kids how to master reading while rocking out with Pete the Cat. Phonics teaches children the relationship between letters and the sounds they make. A child who has mastered these relationships has an excellent foundation for learning to read and spell. According to the National Institute of Child Health & Human Development, a child who has learned phonics has a method to recognize familiar words and "decode" unfamiliar ones.
