Marriage counselor Gary Chapman wrote this book for the countless people who want their marriages to work but haven't been able to find the answers. There is no quick fix, but he does present workable solutions.

In the spirit of Cyril Barber's classic work from the 1970s, *The Minister's Library*, and the author's 2017 book, *The Pastor's Library*, Robert Yost provides the same expert guidance now for a lay audience. Finally, laypersons who desire to study the Bible have an invaluable resource for the acquisition of research tools as well as general Christian reading. From general reference works such as Bible atlases and concordances, commentaries, devotional works, and theological studies to Christian biography and fiction, this book is a trustworthy guide through the multiplicity of books that just seem to keep rolling off the presses. Overwhelmed by the proliferation of Christian books on the shelves? This handy guide is the book for you!

Evangelical Identity and Gendered Family Life provides a sociological and historical analysis of gender, family, and work among evangelical Protestants. In this innovative study, Sally Gallagher traces two lines of gender ideals--one of husbands' authority and leadership, the other of mutuality and partnership in marriage--from the Puritans to the Promise Keepers into the lives of ordinary evangelicals today. Rather than simply reacting against or accommodating themselves to "secular society," Gallagher argues that both traditional and egalitarian evangelicals draw on longstanding beliefs about gender, human nature, and the person of God. The author bases her arguments on an analysis of evangelical family advice literature, data from a large national survey and personal interviews with over 300 evangelicals nationwide. No other work in this area draws on such a range of data and methodological resources. *Evangelical Identity and Gendered Family Life* establishes a standard for future research by locating the sources, strategies, and meaning of gender within evangelical Protestantism.

The unfortunate reality is that Christians are separating and divorcing at the same rate as the unbelieving world. But does separation have to mean the end? You may not feel like reconciling. You may not see hope for a reunion. But the biblical ideal for a separated couple is reconciliation. So how do you do it? When doors slam and angry words fly, when things just aren't working out, and even when your spouse has abandoned your trust, there is hope. Hope for the Separated will show you through God's Word that your marriage can be restored. Recognizing that restoration will not happen for everyone, Dr. Chapman also gives insightful advice for those who experience the pain of divorce.

Though the percentage of Hispanics in universities continues to grow, few Hispanic women/Latinas advance into leadership positions; instead, many are constrained by a glass ceiling. Therefore, the voices and experiences of those that have overcome these barriers in higher education are pivotal stories to be told. Ranging from the perceptions of these women's journeys to leadership, to an understanding of the barriers they encounter, to the question of their access to the resources they need, each factor is a critical component to understanding Hispanic women/Latinas in the higher education atmosphere. Comprehensive research in this area is needed to explore the themes of identity in terms of racial/ethnic identification, social perception, and gender, along with systemic themes on the institutional level regarding the recruitment, retention, and promotion of a diverse higher education administration. *Hispanic Women/Latina Leaders Overcoming Barriers in Higher Education* explores the recruitment, promotion, retention process, and the barriers and resilience needed for Hispanic women/Latinas in higher education leadership roles. The chapters use data collected via a qualitative, phenomenological research study including open-ended interviews, field notes, biographical questionnaires, and a researcher's reflective journal. While covering topics surrounding these women's experiences such as identity themes, self-identification, institutional shortcomings, and valuable support systems, this book is ideally intended for Latina educators, informing legislators, educational officials, and higher education administrators along with practitioners, researchers, academicians, and students interested in institutional equality, female empowerment, and Hispanic women/Latinas' journey in higher education.

We hear people say we should love God with all our hearts, souls, and minds, but what does that mean? Or more importantly, what could it look like to fall in love with God? "Chad, jump on the gator's back!" In a split second, a decision had to be made. Did Chad love his future brother-in-law enough to help him control a powerful seven-and-a-half-foot alligator? Ultimately, there was a subconscious devotion that affected his decision. We all face decisions every day. Some of them are small, but others are potentially life-altering. What you decide to do in those split seconds comes down to this: We all have beliefs about life and love, about what is most important, and we all act on those beliefs. In this book, Chad Young addresses what many Christians are missing: being in love with God. The lack of genuine faith and love in the church is the main reason why 59% of college students who grew up with a Christian background are leaving the Christian faith. Chad uses his own faith journey and humorous stories to call you to a deeper, legitimate love for God.

With the advent of the Reiwa era and 2020 Tokyo Olympics, the world's attention is riveted on Japan's grand tradition. Yet these same traditions are the ones that are hindering our efforts for evangelization. A college student knows he will be disowned by his family if baptized, and a Christian wife cannot receive baptism because of her Buddhist husband's strong opposition. How can we combat against these? There are two approaches: 1. We can condemn Japanese practices as total darkness and preach against them, or; 2. We can follow Paul's teaching and deem the Japanese people as worshipping "an unknown god" (Acts 17:22-31), and try to emphasize common grace at each turn. This book follows the second approach, but provides judiciously placed "caution" signs. It will tell you how to engage in conversation with non-Christians while providing an insider's view of Japan's rich cultural heritage. Its

main purpose is to obtain conversion among the die-hard Buddhists, Shintoists, and traditionalists. When that is done, God's kingdom will be enriched in a manner similar to the time when Saul of Tarsus became Paul the apostle.
