Texts in English/German/French, Works mingling photography & painting.

On the fortieth anniversary of Pierre Commoy and Gilles Blanchard's romantic union, this volume traces four decades of artistic collaboration between the photographer and painter known as Pierre et Gilles. This year-by-year retrospective of their vast oeuvre, accompanied by an incisive essay by art critic Éric Troncy, showcases the genesis and development of their sublime, audacious, and explicitly confected fusion of photography and painting. Highly sophisticated and shamelessly sexy, their art--stylized, idealized painted photographs--synthesizes tropes drawn from celebrity and mainstream gay culture with timeless themes of religion, mythology, and beauty, and many works feature international stars including Madonna, Naomi Campbell, Dita Von Teese, Kylie Minogue, Karl Lagerfeld, Mick Jagger, and Iggy Pop. The book is available in a trade edition and in a limited art edition of 200 copies that features a signed and numbered limited edition print created especially for the book and presented in a deluxe clamshell case.

Public Radio personality Tom Schnabel spotlights giants of the global genre like the late Sufi singer Nusrat Feteh Ali Kahn and this year's Grammy winner Milton Nascimiento, making "Rhythm Planet" both an antidote to the latest flavor of pop and an affirmation of music's power. 125 illustrations, 25 in color.

An 8-volume reference set containing over 4,000 entries written by distinguished scholars, 'The African American National Biography' is the most significant and expansive compilation of black lives in print today.

More than 400 entries, each with a biographical sketch, sample photographs, a list of selected exhibitions, and a bibliography.

Examines a new form of power in contemporary global political economy, focusing on the hybrid authority of standards in the globalisation of services. This book is also available as Open Access.

Beyond radical design? -- A map of unreality -- Design as critique -- Consuming monsters: big, perfect, infectious -- A methodological playground: fictional worlds and thought experiments -- Physical fictions: invitations to make believe -- Aesthetics of unreality -- Between reality and the impossible -- Speculative everything. Inhalt: Today designers often focus on making technology easy to use, sexy and consumable. In this book the concept is proposed, that design is used as a tool to create not only things but ideas. Design means speculating about how things could be - to imagine possible futures. This is not the usual sort of predicting or forecasting, spotting trends and extrapolating; these kinds of predictions have been proven wrong again and again. The "what-if" questions that are intended to open debate and discussions about the kind of future people want (and do not want).
