Medical Science Liaison Job Interview - Inventiv Health *The Medical Science Liaison Career*

As a medical science liaison (MSL) you'll be your company's scientific expert for specific drugs, acting as the key link between clinicians, research and the pharmaceutical industry. The role of an MSL is focused on education rather than sales. The main purposes of the job are to: educate key clinicians about specific drugs or medical devices

Medical science liaison job profile | Prospects.ac.uk

Medical science liaisons are scientific professionals who provide information about their employer's products, such as medical devices, drugs and treatments. They typically represent their employer to decision makers in the medical community, also known as "key opinion leaders" (KOLs), as well as to investors and government regulatory agencies.

What Does a Medical Science Liaison ... - Indeed Career Guide

The Medical Science Liaison (MSL) is a specialized role within the pharmaceutical, biotechnology, medical device, and related health-care fields. They concentrate on a specific therapeutic area or disease state (e.g., oncology, cardiology, gastroenterology, infectious diseases, rheumatology). MSLs establish and maintain relationships with leading physicians, researchers, and clinicians, referred to as key opinion leaders (KOLs) at academic institutions, hospitals, pharma companies, and others.

Medical Science Liaison | ExploreHealthCareers.org

Breaking into a career as an MSL can be challenging as most roles require extensive experience. Here are some things to take into account if you're looking to start a career as a medical science liaison in the pharmaceutical or medical devices industry. What is a medical science liaison?
